

The Cruw App is a new, interactive, fast way for Michigan State University students to network with each other on campus!

The Cruw App provides Michigan State University Students to connect with each other in a video networking setting! This platform is specially designed for the fast university lifestyle and we allow our fellow students to network with other spartans in an interactive space. From icebreakers to help you get your conversation going to being able to custom target what kind of students you are looking for on campus, we allow you to effectively connect and grow your network. Each match allows you to talk face to face for a limited time but don't worry if the vibes are right, you can always add more time in your conversation and also add your match into your friend list! We also haven't forgotten about our amazing clubs on campus, each club will have a special verified profile so that they can reach out and grow as well! Our main goals are to create an environment where students can maximize their networks/resources in a very effective and fast way and be able to create new relationships with their peers!
